FOCUS

While most civil actions settle, many do not. In those instances, an attorney must possess a litany of skills to successfully teach the case to 12 strangers who would rather be anywhere else! This comprehensive 4-hour “how to” program, presented by a Presiding Justice of the California Court of Appeal and experienced plaintiff and defense trial counsel, systematically analyzes each component of a civil jury trial and includes a mock direct and cross-examination demonstration.

Specifically designed for novice and seasoned practitioners alike, the program offers innovative ways to convert jurors from passive listeners into engaged participants, presents strategies for portraying yourself as an objective teacher rather than a biased advocate, and highlights techniques for transforming critical jurors into your client’s champions in the deliberation room.
